

**HANDRAIL SYSTEMS**

API offers a variety of Handrail Systems, from simple cap and base applications to ornamental railings with verticals and intermediates that can be arranged in an endless array of unique and attractive patterns, creating striking results.

**AVAILABLE OPTIONS**

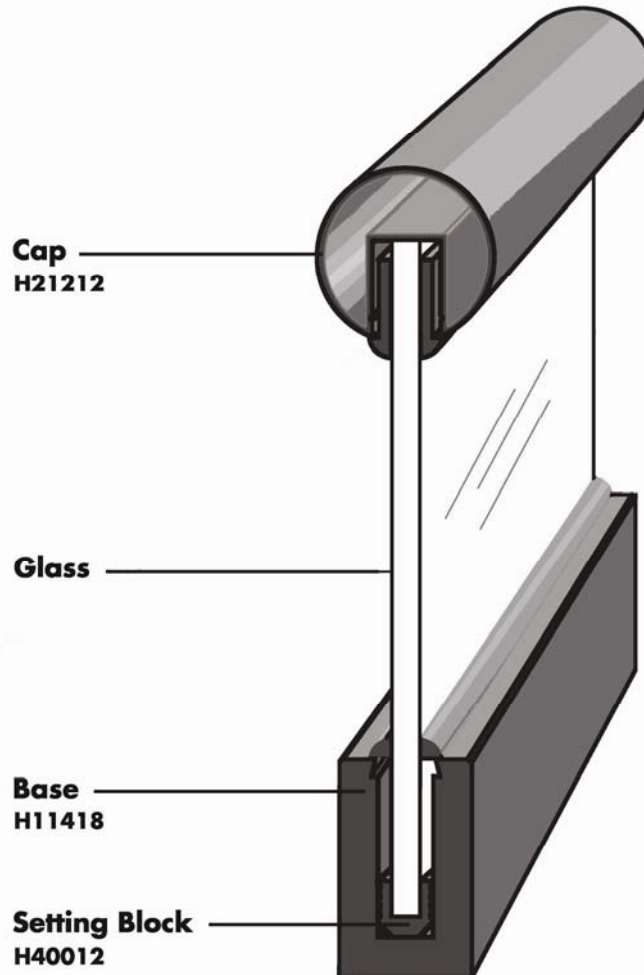

API's Handrail systems are available in a wide variety of materials, colors, and finishes to compliment and enhance the appearance of any décor. Hundreds of anodized and powder coat colors open up a world of design possibilities.

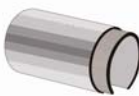

Standard glass Handrail Systems are designed for 1/2" and 3/4" tempered glass. Pre-manufactured radius corners, mitered corners, connector sleeves, and end caps are available for a complete and professional installation. Mounting brackets are also available for wall mount applications.

**OPTIONAL FEATURES**

In addition, all of API's Handrail Systems provide a structurally sound railing without compromising visual space, making our handrail a favorite among architects and designers.

API also offers Custom Designed Handrail Systems for those special projects. Let API manufacture your custom design, or if you need inspiration, just share your ideas with us and let our design team create a customized system just for you. Simple complete the Specialty Design form...
